ACID WHEEL CLEANER - L194

Powerful wheel cleaner

ACID WHEEL CLEANER is a powerful wheel cleaner designed to quickly and efficiently remove even the heaviest deposits of brake dust and grime from wheels, while also rejuvenating and restoring the appearance.

ADVANTAGES

Removes even the heaviest deposits of brake dust

Deep cleaning action

Restores and rejuvenates wheel finishes

Excellent dilution rates for the added economy

TYPICAL APPLICATIONS

Acid Wheel Cleaner contains an acidic blend which dissolves the bond between brake dust and the wheel allowing for rapid removal – without the need for excessive scrubbing. The excellent dilution rates make the product very economical in use, saving time and money by reducing waste.

APPLICATION INSTRUCTIONS

Dilute Acid Wheel Cleaner 1:12 with water and spray liberally onto wheels. Allow for a short contact time agitating lightly with a wheel brush as required. Rinse thoroughly with high-pressure water.

Do not allow the product to dry out on surfaces. Do not apply to chrome, anodised aluminium or un-lacquered wheels. Avoid contact with surfaces where the lacquer has become scratched or abraded.
