Technical Data Sheet

BRAKELEC III - L630 / B038

Fast evaporating solvent degreaser

BRAKELEC III incorporates highly refined solvents, designed to clean and degrease surfaces while leaving them residue free. The quick drying formula makes Brakelec III ideal for removal of oil, grease and brake dust from the brake assemblies.

Available in both Liquid and aerosol packs.

ADVANTAGES

Exceptional low odour brake cleaner

Leaves no oily residue

Superb spot cleaner for fabrics and paint

More user friendly than conventional degreasing solvents

TYPICAL APPLICATIONS

Brakelec III carries a lower odour, and is less hazardous to human health than many commonly used solvent degreasers, making it much safer for the end user. Brakelec III can also be used as an effective oil and tar spot remover for paintwork and fabrics.

APPLICATION INSTRUCTIONS

General degreasing

Apply via spray, brush, cloth or aerosol to components or surfaces. Wipe away excess material or allow to air dry

Fabric spot cleaning

Apply as a fine spray or via a cloth to the oil spot, dabbing lightly to prevent spreading and to absorb the oil. Allow to dry. Repeat process as necessary.

Brake cleaning

Spray liberally onto brake assembly. Wipe away any excess product and allow to air dry. Ensure brake assembly is fully dry before vehicle is driven.
