Technical Data Sheet

POWERSHINE - L445

Powerful heavy duty traffic film remover with shine additives

POWERSHINE is a concentrated alkaline detergent formulation designed to attack stubborn grime and soiling found on vehicles. Powershine contains specialised shine additives which enhance livery and help prevent re-soiling.

ADVANTAGES

Exceptional dilution rates

Very effective on grease and oil

Low cost per wash

Added shine enhancer and protective coating helps repel water and soiling

TYPICAL APPLICATIONS

Designed for cleaning of vehicles used in heavy haulage industry, removing stubborn grime and soiling.

APPLICATION INSTRUCTIONS

Powershine is designed to be used cold through high pressure washing equipment.

Apply the Powershine at a dilution of between 0.50% and 2.00% at the nozzle end, starting at the base of the vehicle and working upwards. Allow a short contact time and rinse thoroughly.

For added cost and dilution control, Powershine may be pre-diluted between 1:1 - 1:9 before it is drawn through the pressure washer.

N.B. Do not allow Powershine to dry out onto the vehicle.

Test delicate or decorative paintwork prior to full application.
